# MINUTES AIR QUALITY ADVISORY COUNCIL October 10, 2018

## Department of Environmental Quality Oklahoma City, Oklahoma

Official AQAC Approved at January 16, 2019 meeting

Notice of Public Meeting – The Air Quality Advisory Council (AQAC) convened for its Regular Meeting at 9:00 a.m. on October 10, 2018, at the Department of Environmental Quality, 707 North Robinson, Oklahoma City, Oklahoma. Notice of the meeting was forwarded to the Office of Secretary of State on October 18, 2017. The agenda was posted at the DEQ twenty-four hours prior to the meeting. Also, Ms. Beverly Botchlet-Smith acted as Protocol Officer and convened the hearings by the AQAC in compliance with the Oklahoma Administrative Procedures Act and Title 40 CFR Part 51 and Title 27A, Oklahoma Statutes, Sections 2-2-201 and 2-5-101 through 2-5-117. She entered the agenda and the Oklahoma Register Notice into the record and announced that forms were available at the registration table for anyone wishing to comment on any of the rules. Ms. Laura Lodes, Chair, called the meeting to order. Ms. Quiana Fields called roll and confirmed that a quorum was present.

MEMBERS PRESENT	DEQ STAFF PRESENT	Cooper Garbe
Montelle Clark	Eddie Terrill	Melanie Foster
Gary Collins	Beverly Botchlet-Smith	Bryan Sims
Robert Delano	Cheryl Bradley	Malcolm Zachariah
Gregory Elliott	Madison Miller	Diana Scholtz
Jim Haught	Brooks Kirlin	Alicia Foster
Jeffrey Taylor	Tad Alford	Lloyd Kirk
Laura Lodes	Jonathan Truong	Rob Singletary
	Nancy O'Brien	Heather Lerch
MEMBERS ABSENT	Quiana Fields	Christina Hagens
Gerald Butcher	Grant Loney	
Steve Landers	Curt Goeller	
	Phillip Fielder	
	Carrie Schroeder	

**Approval of Minutes** – Ms. Lodes called for a motion to approve the Minutes of the June 20, 2018 Regular Meeting. Mr. Taylor moved to approve and Mr. Haught made the second.

_	See transci	ript pages 4 - 5	
Montelle Clark	Yes	Jim Haught	Yes
Gary Collins	Yes	Jeffrey Taylor	Yes

Chapter 100. Air Pollution Control

OAC 252:100-37. Control of Emission of Volatile Organic Compounds (VOCs)

252:100-37-27. Control of emission of VOCs from aerospace industries coatings operations [NEW]

OAC 252:100-39. Emission of Volatile Organic Compounds (VOCs) in

Nonattainment Areas and Former Nonattainment Areas

252:100-39-47. Control of VOC emissions from aerospace industries coatings operations [AMENDED]

Appendix N. Specialty Coatings VOC Content Limits [REVOKED]

Appendix N. Specialty Coatings VOC Content Limits [NEW]

Mr. Cooper Garbe, Environmental Programs Specialist of the Air Quality Division (AQD), stated the Department is proposing to add a new section 252:100-37-27, Control of emission of VOCs from aerospace industries coatings operations, for existing or new aerospace vehicle and component coating operations at aerospace manufacturing, rework, or repair facilities. Additionally, the Department is proposing to amend 252:100-39-47 to correct minor typographical errors, incorporate the latest changes to the aerospace NESHAP, and ensure regulatory consistency with proposed section 252:100-37-27. Lastly, the Department is proposing to revoke Appendix N and replace it with a new Appendix N. Mr. Garbe stated that the staff recommends that the Council carry this rule forward to a subsequent meeting. Following questions and comments by the Council and by the public, Ms. Lodes called for a motion to carry the rule proposal forward to a subsequent meeting. Mr. Taylor moved to approve the rule over to the next meeting, January 16 and Dr. Delano made the second. Ms. Foster then suggested to amend the motion due to inclement weather and to carry the meeting over to a subsequent meeting instead of mentioning the next meeting, which is January 16. Ms. Botchlet-Smith intervened and mentioned a motion and a second is on the table, so the Council needs to vote that amendment down and then proceed to vote on the rule to carry it over. Ms. Lodes called for a roll call vote to vote the rule down and the motion presented was failed.

See transcript pages 8 - 22			
Montelle Clark	No	Jim Haught	No
Gary Collins	No	Jeffrey Taylor	No
Robert Delano	No	Loura Lodes	No
Gregory Elliott	No		

Ms. Lodes called for a new motion for the OAC 252:100-39-47 rule. Mr. Taylor moved to postpone the rule to the next subsequent meeting and Mr. Haught made the second.

Chapter 100. Air Pollution Control

OAC 252:100-39 Emission of Volatile Organic Compounds (VOCs) in

Nonattainment Areas and Former Nonattainment Areas

**252:100-39-4. Exemptions [AMENDED]** 

Mr. Garbe stated the Department is proposing to amend 252:100-39-4, Exemptions, to correct a typographical error and add 252:100-39-42, Metal Cleaning, to the sections of 252:100-39 from which VOCs with vapor pressures less than 1.5 pounds per square inch absolute are exempted. Mr. Garbe stated that the staff would recommend the Council carry this rule forward to a

subsequent meeting. Hearing no questions or comments by the Council or the public, Ms. Lodes called for a motion. Mr. Haught moved that the rule be carried over to a subsequent meeting and Mr. Elliott made the second.

#### Chapter 100. Air Pollution Control

OAC 252:100-39. Emission of Volatile Organic Compounds (VOCs) in

Nonattainment Areas and Former Nonattainment Areas

252:100-39-40. Cutback asphalt (paving) [AMENDED]

Mr. Garbe stated the Department is proposing to amend 252:100-39-40, Cutback asphalt (paving), to correct the dates of Oklahoma's non-oxidant season, which should be December 1 through the last day of February. The gist of this rulemaking is to ensure that cutback asphalt cannot be used during Oklahoma's extended ozone season. Following questions and comments by the Council and none by the public, Ms. Lodes called for a motion. Mr. Haught moved to approve the DEQ's proposed amendments to 252:100-39-40 and Mr. Taylor made the second.

#### Chapter 100. Air Pollution Control

OAC 252:100-39. Emission of Volatile Organic Compounds (VOCs) in

Nonattainment Areas and Former Nonattainment Areas

252:100-39-41. Storage, loading and transport/delivery of VOCs [AMENDED]

Mr. Garbe stated the Department is proposing to amend 252:100-39-41, Storage, loading, and transport/delivery of VOCs to allow for the use of alternative testing methods for leak inspections, to revise references used for pressure and vapor testing to the most recent EPA regulations, and to update tank truck tag requirements to reflect current practices. Following questions and comments by the Council and none by the public, Ms. Lodes called for a motion. Mr. Haught moved to approve the proposed changes to 252:100-39-41 and Mr. Collins made the second.

Montelle Clark	Yes	Jim Haught	Yes
Gary Collins	Yes	Jeffrey Taylor	Yes
Robert Delano	Yes	Laura Lodes	Yes
Gregory Elliott	Yes		

#### Chapter 100. Air Pollution Control

OAC 252:100-2. Incorporation By Reference [AMENDED]

Appendix Q. Incorporation By Reference [REVOKED]

Appendix Q. Incorporation By Reference [NEW]

Ms. Nancy O'Brien, Environmental Programs Specialist of the AQD, stated the Department is proposing to update OAC 252:100, Appendix Q, Incorporation by Reference. In addition, the Department is proposing to update language in Subchapter 2, Incorporation by Reference, to reflect the latest date of incorporation of EPA regulations in Appendix Q. Hearing no questions

or comments by the Council or the public, Ms. Lodes called for a motion. Mr. Haught moved to approve the recommended changes to update Appendix Q and Mr. Elliott made the second.

See transcript pages 41 - 44			
Montelle Clark	Yes	Jim Haught	Yes
Gary Collins	Yes	Jeffrey Taylor	Yes
Robert Delano	Yes	Laura Lodes	Yes
Gregory Elliott	Yes		

Ms. Botchlet-Smith announced the conclusion of the hearing portion of the meeting. Ms. Foster intervened and stated the motion may have only approved Appendix Q and not Subchapter 2 so following a discussion, Ms. Lodes called for a motion to reopen the hearing portion of the meeting. Mr. Taylor made a motion to reopen the hearing and Dr. Delano made the second.

	See transcrij	ol pages 44 - 46	
Montelle Clark	Yes	Jim Haught	Yes
Gary Collins	Yes	Jeffrey Taylor	Yes
Robert Delano	Yes	Laura Lodes	Yes
Gregory Elliott	Yes		

Ms. Lodes stated we believe the prior motion may have only approved Appendix Q we need a motion to approve Subchapter 2. Mr. Haught made a motion to approve the proposed changes to Subchapter 2 and Mr. Taylor made the second.

	Sec transcrij	pt pages 46 - 47	
Montelle Clark	Yes	Jim Haught	Yes
Gary Collins	Yes	Jeffrey Taylor	Yes
Robert Delano	Yes	Laura Lodes	Yes
Gregory Elliott	Yes		

Ms. Botchlet-Smith announced the conclusion of the hearing portion of the meeting.

See transcript page 47

Presentation – Mr. Curt Goeller, Environmental Programs Manager of the AQD, gave a presentation on the 2018 Ozone Season Review and Looking Ahead. Ms. O'Brien gave a presentation on the Ozone Advance Program Overview.

**Division Director's Report** – Mr. Eddie Terrill, Division Director of the AQD, provided an update on other Division activities.

New Business - None

Adjournment - The next scheduled regular meeting is on Wednesday, January 16, 2019 in Oklahoma City. Meeting adjourned at 11:00 a.m.

Transcript and attendance sheet are attached as an official part of these Minutes.

So, first of all, this particular proposal is for aerospace coating operations. And, in 37-25, we have a general coatings section where we have a list of coatings and limits that are to be adhered to. At the same time, in Subchapter 39, which is a nonattainments and former nonattainment area subchapter, we have aerospace specific coating rule. And so what we have found is that, between the two, we were having a hard time matching up the limits that facilities are subject to between those two different
2 3 4 5 6 7 8 9 10 11 12 13	Beverly Botchlet-Smith. I'm the Assistant Director of the Air Quality Division, and, as such, I'll serve as a protocol officer for today's hearings.  The hearings will be convened by the Air Quality Council in compliance with the Oklahoma Administrative Procedures Act in Title 40 of the Code of Federal Regulations Part 51, as well as the authority of Title 27A of the Oklahoma Statutes, Section 2-2-201 and Sections 2-5-101 through 2-5-117.  Notice of the October 10th, 2018, hearings were advertised in the Oklahoma Register for the purpose of receiving comments pertaining to a proposed excuse me OAC Title 252 Chapter 100	2 3 4 5 6 7 8 9 10 11 12 13	changes we've made since that meeting in response to comments.  So, first of all, this particular proposal is for aerospace coating operations. And, in 37-25, we have a general coatings section where we have a list of coatings and limits that are to be adhered to. At the same time, in Subchapter 39, which is a nonattainments and former nonattainment area subchapter, we have aerospace specific coating rule. And so what we have found is that, between the two, we were having a hard time matching up the limits that facilities are subject to between those two different subchapter and subsection rules. So what we did is we
2 3 4 5 6 7 8 9 10 11 12 13	Beverly Botchlet-Smith. I'm the Assistant Director of the Air Quality Division, and, as such, I'll serve as a protocol officer for today's hearings.  The hearings will be convened by the Air Quality Council in compliance with the Oklahoma Administrative Procedures Act in Title 40 of the Code of Federal Regulations Part 51, as well as the authority of Title 27A of the Oklahoma Statutes, Section 2-2-201 and Sections 2-5-101 through 2-5-117.  Notice of the October 10th, 2018, hearings were advertised in the Oklahoma Register for the purpose of receiving comments pertaining to a proposed excuse me OAC Title 252 Chapter 100 rules as listed on the agenda and will be entered into	2 3 4 5 6 7 8 9 10 11 12 13	changes we've made since that meeting in response to comments.  So, first of all, this particular proposal is for aerospace coating operations. And, in 37-25, we have a general coatings section where we have a list of coatings and limits that are to be adhered to. At the same time, in Subchapter 39, which is a nonattainments and former nonattainment area subchapter, we have aerospace specific coating rule. And so what we have found is that, between the two, we were having a hard time matching up the limits that facilities are subject to between those two different subchapter and subsection rules. So what we did is we have proposed to add a new section, 37-27, for
2 3 4 5 6 7 8 9 10 11 12 13 14	Beverly Botchlet-Smith. I'm the Assistant Director of the Air Quality Division, and, as such, I'll serve as a protocol officer for today's hearings.  The hearings will be convened by the Air Quality Council in compliance with the Oklahoma Administrative Procedures Act in Title 40 of the Code of Federal Regulations Part 51, as well as the authority of Title 27A of the Oklahoma Statutes, Section 2-2-201 and Sections 2-5-101 through 2-5-117.  Notice of the October 10th, 2018, hearings were advertised in the Oklahoma Register for the purpose of receiving comments pertaining to a proposed excuse me OAC Title 252 Chapter 100 rules as listed on the agenda and will be entered into each record along with the Oklahoma Register filing.	2 3 4 5 6 7 8 9 10 11 12 13 14	changes we've made since that meeting in response to comments.  So, first of all, this particular proposal is for aerospace coating operations. And, in 37-25, we have a general coatings section where we have a list of coatings and limits that are to be adhered to. At the same time, in Subchapter 39, which is a nonattainments and former nonattainment area subchapter, we have aerospace specific coating rule. And so what we have found is that, between the two, we were having a hard time matching up the limits that facilities are subject to between those two different subchapter and subsection rules. So what we did is we have proposed to add a new section, 37-27, for aerospace coatings that would be applicable statewide.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	Beverly Botchlet-Smith. I'm the Assistant Director of the Air Quality Division, and, as such, I'll serve as a protocol officer for today's hearings.  The hearings will be convened by the Air Quality Council in compliance with the Oklahoma Administrative Procedures Act in Title 40 of the Code of Federal Regulations Part 51, as well as the authority of Title 27A of the Oklahoma Statutes, Section 2-2-201 and Sections 2-5-101 through 2-5-117. The current Appendix N is only to be used for Subchapter 39 Section 47 for the Tulsa only portion of the aerospace coatings rules. We have proposed to open that up and revoke it as per protocol and create a new Appendix N so that it may be used by

Page 13

Page 10 1 aerospace coatings operations. I'll go ahead and go through some of the 3 changes that were made since the June meeting in 4 response to comments, and then, as well, let you know 5 of a little update on what we have in mind for this 6 particular rule. So we received comments prior to the 7 June meeting from American Airlines that we have since responded to. You may find those in your packet or on our website. Specific changes that we've made in response to American Airlines' comments, in our 11 Response to Comments Document Number 4, American commented that 39-3 be removed from Subchapter 39-47, 13 the Tulsa only aerospace coatings rule. Such that applicability to Subchapter 39, specifically Section 47 15 where it exempts a facility from 37 requirements. specifically Sections 25, 26, and 27. That was the 17 connent. 16 Our response reads, "The Department agrees with the concern American has raised regarding 19 dual regulations between Subchapters 39 and 37, and the 21 Department does not think that 39-3, general 22 applicability, is the appropriate section to address these concerns. Although, a new provision has been added to 39-47(a)(1), addressing the concern which 25 states coating operations subject to this section are

Page 12 1 posting issue where we found the wrong person to be 2 posted, and so that was one thing that was missing from 3 there. The other thing missing from that version was the update of a date change for the NESHAP GG. We 5 proposed in June to update it to, I believe, December. July 1st -- I believe -- I believe we proposed in June to update it to December of 2014, if I'm not mistaken, and we have since changed that to August 3rd, 2016. That's the other change that was not published on our 12 MR. HAUGHT: Cooper, where -- where is 13 that part referenced -- (inaudible?) MR. GARBE: That is in -- excuse me --14 39-47(b). Sorry. 15 16 MR. HAUGHT: Okay. 17 MR. GARBE: Moving on to the last 18 addition that we've made since the June meeting in 19 response to a comment made by American that requested that housekeeping solvent cleaning operations subject to 100-39-47 be exempted from 100-39-42 per a Department memo dated June 1st, 2016. What we came up with was a rule proposal for 39-4 for exemptions. We 24 placed 39-42 in a proposal for the exemptions section 25 in 39-4 to alleviate this concern. At the time, we

1 exempt from the requirements of OAC 252:100-37-25 and 2 252:100-37-27.\* So you'll find that new comment, that new addition there in 39-47(a)(1), that was made to keep 4 5 from duly regulating these facilities between Tulsa County and statewide regulation. That was the first

7

change we made.

Secondly, you'll find in our Comments and 9 Responses Document Number 9, American requested a sentence stating that compliance with 40 CFR Part 63 11 Subpart GG will be considered as compliance with this section, similar to one already stated in 252:100-37-27 and the proposal for that. Our response was the Department agrees with this and it's added this in the

15 requested language as 100-39-47(a)(4). 16 One thing to note here is that our version that was published on our website was a middle 17 version and not the final version, and so that 19 particular part, (a)(4), was left out. It has since 20 been put into your packet, I believe, for Council, and 21 there's a copy at the sign-in table for members of the 22 public that might want to see that. As you can see by 23 our Comments and Responses Document, that was an 24 intended addition following the June meeting all along. 25 As I said, the website, we had a little bit of a

1 didn't believe that carving out a 39-42 exemption into 2 the aerospace rule of 39-47 was necessary. Since then, as our staff has discussed this and -- and thought 4 things through a little bit, we are going to -- this is 5 a little bit further down on the agenda, but we are actually going to ask 39-4 to be carried over because we want to evaluate what that addition to the exemption section, what the implications may really be as we have not yet had a chance to really dig into what kind of 10 VOCs at a certain level listed in 39-4 may be. And so, with that being said that we may be -- that we're going to ask for 39-4 to be carried over because we have responded to some comments on this rule with that particular proposal being our answer, we will be asking for this rule to be carried over as well today. So that is another update that you might want to be aware

of right now. 18 So going back to some of those changes that we made and the original -- the original proposal 19 20 from June as it is and brought to today, what we are proposing is to add a new Section 27 to Subchapter 37. and that will be applicable for the remainder of the 23 state outside of Tulsa County for aerospace coating

operations that will fall in line more closely with 25 NESHAP GG, and, as well, mirror more closely with the

```

                                                                              Okay. Any -- not seeing any other
7 changes since the June meeting is in Section 47 of 39
                                                             7 questions from the council, do we have any questions
   is to exempt anybody subject to 39-47 from being duly
                                                                from the public?
   regulated in 37-27 and in 37-25.
                                                             ٩
                                                                              MS. BOTCHLET-SMITH: I had a notice that
10
                 Finally, we are proposing to revoke
                                                            10
                                                                we had one person from the public that wanted to
11 Appendix N, the specialty coatings table that is used
                                                                comment on 39, but that was for Agenda Item 5 B.
12 in 39-47, and creating a new Appendix N which will
                                                            12
                                                                              So I'll extend -- did you have a comment
13 correct a few typographical errors in it as well as a
                                                            13 on 5 A as well, or do you wish to wait and make your
14 new headline stating that the new Appendix N can be
                                                            14 comments on 5 B?
15 used in the new section proposed of Subchapter 37.
                                                            15
                                                                              MS. LATIMER-DAVIS: Yes. Now.
16
                 You may recall that, prior to the
                                                            16
                                                                              MS. BOTCHLET-SMITH: Do you want to
17 publication of the proposed rule in June, staff created
                                                            17
                                                                comment now, Thelma?
   a work group with industry professionals from the
                                                            19
                                                                              (No audible response.)
  aerospace industry to work on this and give input. We
                                                            19
                                                                              MS. BOTCHLET-SMITH: Okay. So Thelma
20 worked with them prior to the June proposal and we have
                                                            20
                                                                Latimer-Davis from American Airlines.
21 since made them aware of the re-proposal of this rule
                                                                              MS. LATIMER-DAVIS: Thank you. Yes. My
                                                            21
22 change. Since the publication date for the October
                                                            22
                                                                name is Thelma Latimer-Davis from American Airlines.
23 meeting, the Department has received no comments
                                                                I'd like to personally thank and professionally thank
24 regarding this proposal. As I mentioned earlier,
                                                            24 the whole DEQ staff and Air Quality Council for working
25 because of our desire to reevaluate the 39-4 exemption
                                                            25 to make this an effective and efficient rule.
                                                                                                                 Page 17
1 and the comment that we received regarding the metal
                                                                              As American has stated and submitted
2 cleaning in 42 and our response, we are recommending
                                                                comments on June 14th, American is seeking to clarify
I that Council carry this rule proposal forward to a
                                                             3 the language of Subchapter 100-37-25 and 39-47 in order
4
   subsequent meeting. Thank you.
                                                               to assure its compliance with the intent of the
5
                 MS. BOTCHLET-SMITH: Do we have any
                                                                subchapters. American is asking -- requesting the
   questions from the council?
6
                                                                Department to confirm its intent as to whether the
                  MS. LODES: So we have -- so we need to
7
                                                                exempted low volume coatings are subject to 100-37-27
8 hold this over just because we're not going to do the
                                                                -- 25 as a result of being exempted from 100-39-47.
                                                                ODEQ submitted responses and comments on September
  exemption 39-4?
10
                  MR. GARBE: We believe it would be best
                                                            10 11th, 2018. Response Number 1 stated the Department's
11 because our response to one of the comments made from
                                                                intent was not for coating operations exempted from
12 American Airlines was that we would be going forward
                                                                100-37-27 to be re-subjected to 100-37-25. However,
13 with 39-4 to address a concern they had about cleaning
                                                                the comments did not address the re-subjecting of
14 operations using VOCs, and because we will no longer be
                                                                exempted coatings under 100-39-47 to 100-37-25.
                                                            14
15 going forward with that proposal, we felt it best to
                                                            15
                                                                              American requests the Department clarify
   carry this forward one more time at least to find a way
                                                            16
                                                                its intent for coating operations exempted under
17
   to address those for certain.
                                                                Subchapter 39-47, and whether the same are subject to
18
                  MS. LODES: Other questions?
                                                                or re-subjected to 100-37-25. Thank you.
19
                  So I don't see in my packet a question.
                                                            19
                                                                              MS. BOTCHLET-SMITH: Thank you. So are
20 What was the question on 39-4?
                                                                there other questions from the council for Cooper?
                                                            20
                  MS. BOTCHLET-SMITH: I don't think we've
21
                                                            21
                                                                              (No audible response.)
                                                                              MS. LODES: Okay. The DEQ has
22 come to a discussion on 39-4 because that's Item Number
                                                            22
23 B on the hearing.
                                                                recommended that we hold this rule over. Seeing no
24
                  MS. LODES: I know. But if it's holding
                                                                further questions or comments, do we have a motion?
25 this one up. I guess that's why I'm curious on it. I
                                                            25
                                                                              MR. TAYLOR: So move.
```

Page 18 2 mocion. 3 MR. TATIOR: Oh. We need to hold 4 (inaudible.) 5 (Inaudible.) 6 MR. CARGE: Yes. We need to hold 5 (inaudible.) 6 MR. TATIOR: What, to mext month, or to 9 the next next neeting? 10 MR. TATIOR: Okay. January 20th, I 11 MR. TATIOR: Okay. January 20th, I 12 believe Wold it over until January 20th neeting then. 13 That's a motion. 14 MR. LODES: Tes. 15 MR. DELAND: I'll second. 16 MR. DELAND: I'll second. 17 MR. DELAND: I'll second. 18 MR. TATIOR: Okay. Subscript of the second of the second? 19 MR. MANGET: To the next neeting. 20 (Malciple voices.) 21 MR. TATIOR: Oh, January 16th. 22 MR. TATIOR: Oh, January 16th. 23 MR. TATIOR: Oh, January 16th. 24 MR. TATIOR: Ohy. 25 MR. TATIOR: The next neeting. 26 MR. TATIOR: Ohy. 27 MR. TATIOR: Ohy. 28 MR. TATIOR: Ohy. 39 MR. TATIOR: Ohy. 40 Arr, to state the mocion clearly, I have a mocion to the subsequent meeting. 40 MR. TATIOR: Ves. 41 MR. TATIOR: Ves. 42 MR. TATIOR: Ves. 43 MR. TATIOR: Ves. 44 Or, to state the mocion clearly, I have a mocion to the subsequent meeting. 45 MR. TATIOR: Ohy. So we need the mocion to the subsequent meeting. 46 MR. TATIOR: Correct. I'll make that in subsequent meeting in case we have a weather delay or something. 47 MR. CALER: MR. CALER: MR. ELIDES: Mr. Taylor? 48 MR. TATIOR: Correct. I'll make that in subsequent meeting in case we have a weather delay or something. 49 MR. TATIOR: Correct. I'll make that in subsequent meeting in case we have a weather delay or something. 40 MR. TATIOR: Correct. I'll make that in subsequent meeting in case we have a weather delay or something. 41 MR. TATIOR: Correct. I'll make that in subsequent meeting in case we have a weather delay or something. 42 MR. TATIOR: To the January 16th, 2019, MR. TATIOR: No. 43 MR. TATIOR: To the January 16th, 2019, MR. TATIOR: No. 44 MR. TATIOR: Correct. I'll make that in subsequent meeting in case we have a weather delay or something. 45 MR. TATIOR: To the January 16th, 2019, MR. TATIOR: No. 46 MR. TATIOR: To the January 16th, 2019, MR. TATIOR: No. 47 MR	1 MS. LODES: Yes. I need you to state the 2 motion. 2 second, so, technically, we need to vote on 3 MR. TAYLOR: Oh. We need to hold 4 (inaudible.) 5 (Inaudible.) 6 MR. GARBE: Yes. We need to hold that 6 rule. Sorry. That's	able and a that. In to vote mendment. vote on the
2 seconds. 3	2 motion.  2 second, so, technically, we need to vote on  3 this case, if that date is wrong, we'd have  4 (inaudible.)  5 (Inaudible.)  6 MR. GARBE: Yes. We need to hold that  2 second, so, technically, we need to vote on  3 this case, if that date is wrong, we'd have  4 that down. Or we can have a motion for an a  5 We'd have to vote on the amendment and then  6 rule. Sorry. That's	that. In to vote mendment. vote on the
1	3 MR. TAYLOR: Oh. We need to hold 4 (inaudible.) 5 (Inaudible.) 6 MR. GARBE: Yes. We need to hold that 6 rule. Sorry. That's	to vote mendment. vote on the
4 (thandible.) 5 (Traudible.) 6 NR. GARGE: Yes. We need to hold that 7 over. 8 NR. TANIGR: What, to next month, or to 9 the next next neeting? 10 NS. LODES: Yes. 11 MR. TANIGR: Mark, to next month, or to 9 the next next neeting? 12 believ? Hold it over until January 20th neeting then. 13 That's a notion. 14 MS. LODES: I have a motion. Do I have a 15 second? 15 DR. DELAYD: I'll second. 16 DR. DELAYD: I'll second. 17 MS. LODES: I have a motion and a second? 18 MR. TANIGR: How about the 20th of 19 January, 2019 (innutible.) 20 (Maltiple volces.) 21 MR.                                                                                MR. GARBE: Yes, I believe so.
12
                  Mr. Cooper Garbe will continue with his
                                                            12
                                                                               MR. CLARK: Is there a reason they
13 presentation.
                                                             13
                                                                couldn't use emulsifier, you say in, like, an
14
                  MR. GARBE: Thank you.
                                                                emergency? Is this just an expense issue, or is it, in
                                                             14
15
                  Madam Chair, Members of Council, members
                                                                cold weather, emulsifier doesn't work, or --
16 of the public, as a continuation of our cleanup in
                                                            16
                                                                               MR. GARBE: That, I'm not sure why they
17 Subchapter 39, the Department is proposing to update
                                                             17
                                                                can't use emulsifier at certain times. I believe there
18 Section 40 which limits the use of cutback liquefied
                                                                are some other properties to it that limits them, but
                                                             18
19 asphalt to the non-ozone season in nonattainment and
                                                                that is something somebody with technical expertise on
20 former nonattainment areas. We are proposing to update
                                                                cutback asphalt might want to answer.
                                                            20
21 the calendar reference to Oklahoma's non-ozone season,
                                                            21
                                                                               MR. CLARK: Okay. Thanks. I was just
22 which is now December 1 through the last day of
                                                                trying to get a sense of how often cutback is actually
                                                             22
23 February, to reflect Oklahoma's currently designated
                                                             23
                                                                used and is there a reason that you couldn't use
24 ozone season. We have received no comments on this
                                                                emulsifier in all applications.
                                                             24
25 rule proposal. The Department requests the council
                                                             25
                                                                               MS. LODES: So this rule limits it where
1 recommend this proposal to be adopted as a permanent
                                                             1 they can only use it from December to February.
 2 rule change.
                                                                               MR. CLARK: Right. And I was trying to
                  MS. BOTCHLET-SMITH: Any questions from
                                                             3 understand why they wouldn't use it. Is it less
4 the council?
                                                                expensive, is it -- does it have certain properties
5
                   (No audible response.)
                                                               that work better in cold weather? That's what I was
                  MS. BOTCHLET-SMITH: Montelle?
                                                             6
                                                                asking.
                                                                               MS. LODES: It's going to have certain
 7 Montelle, did you have a question?
                                                             7
                  MR. CLARK: Yes, I do. Sorry. I'm
                                                                properties that are going to work better in cold
9 switching. This prior written consent from the
                                                                weather, but you've got -- because of the way it spins
10 division director element, I'm not that familiar with
                                                             10 and such, it's -- in the colder weather, it's going to
11 this. Can you -- how often is this consent granted and
                                                            11
                                                                be -- you have issues with freezing.
12 under what conditions?
                                                             12
                                                                               MR. CLARK: Emulsifier doesn't work as
13
                  MR. TERRILL: I doubt if Cooper -- this
                                                            13
                                                                well in really cold weather? Is that --
14 is Eddie. I doubt if Cooper has been around since
                                                            14
                                                                               MS. LODES: That would be my
15 we've done it. It's been so long since we've done
                                                            15
                                                                understanding.
16 that. I would imagine it's been probably 15 or 20
                                                            16
                                                                               MR. CLARK: Okay.
17 years since I did that. It was generally back before
                                                            17
                                                                               MR. COLLINS: I guess my question, and,
18 when this was used a lot and they -- they weren't able
                                                            18
                                                                Laura, maybe you answered it. Just to confirm the
19 to schedule it. And so it's -- it's a holdover
                                                            19
                                                                dates to make sure that I'm -- I'm straight on what
20 actually, but it's something that could happen, and it
                                                            20
                                                                we're proposing as a rule change, the date would
21 would depend on the circumstances and the need for
                                                                restrict cutback during any of the ozone season which
22 doing it, an emergency situation, that sort of thing.
                                                            22 excludes December 1 through the end of February?
23 But we've worked -- we've reached out to ODOT and some
                                                            23
                                                                               MR. GARBE: That is correct. Our
24 of the others that use the cutback asphalt to see if
                                                                non-ozone season is now December 1 through the last day
25 this would be an issue with them, and we don't believe
                                                            25 of February.

We are proposing to add the use of an alternative work practice, typically optical gas imaging using equipment such as a FLIR camera for monitoring equipment leaks as an alternative to the use of EPA Test Method 21. The proposal would require that the alternative work practice be consistent with 40 CFR 60.18(g) through 60.18(i) where EPA specifies the proper use of CGI, optical gas imaging. The highlighted portion is the second of three revisions since publication on our website and was made to clarify the detection methods necessary for this portion.

                                                                               MS. EOTCHLET-SMITH: Seeing none --
20 updates to the references for tank truck testing. Once
                                                                Montelle, did you have a question?
                                                            20
21 again, the 1978 CTG is referenced, and we are proposing
                                                            21
                                                                               MR. CLARK: Just one minor question.
22 to update those references to the applicable EPA Test
                                                                We've added under 4(b), you've added a 5(a), repair
                                                            22
23 Methods 21 and 27 for vapor and pressure tests
                                                            23
                                                                requirement. Correct?
24 respectively.
                                                            24
                                                                               MR. GARBE: We've amended it.
25
                   Finally, while proposing update for the
                                                            25
                                                                               MR. CLARK: Amended it to --
                                                                                                                  Page 37
 1 use of EPA Test Method 27, we are proposing to update
                                                             1
                                                                               MR. GARBE: To five days.
 2 the measurement parameters that need to be met for
                                                             2
                                                                               MR. CLARK: Yeah.
 3 passing a pressure test to be consistent with the use
                                                             3
                                                                               MR. GARBE: Yes.
 4 of Method 27. To date, we have received no comments on
                                                                               MR. CLARK: And, under 3, the 15-day
 5 this proposal. Today, the Department would like to
                                                             5 repair requirement, is -- is there -- I'm just curious
 6 request that Council recommend this proposal to the
                                                                as to why there's a difference in the length of time
 7 Environmental Quality Board for adoption as a permanent
                                                                for repairs on one versus the other.
                                                             7
 8 rule change. Thank you.
                                                             A
                                                                               MR. GARBE: I believe those requirements
 9
                  MS. BOTCHLET-SMITH: Do we have any
                                                                are regulating different entities of the -- of the
10 questions from the council?
                                                            10
                                                                process. Where at in A are you looking at again?
11
                  MR. ELLIOTT: I assume, under 39-41(a),
                                                                               MR. CLARK: In 3 -- Section 3, loading
                                                            11
12 it talks about the vessel capacity greater than 40,000
                                                            12
                                                                of VOCs. Leaks greater than 5,000 should be repaired
13 which stores gasoline or any VOC, I'm assuming that
                                                                within 15 days. I don't know if it's material or not,
14 that's light VOC; right? The 1.5? Talking about the
                                                                but I just wondered why there's a difference of 15 days
15 control requirements.
                                                                allowed there versus five days allowed in the new
16
                   MR. GARBE: The capacity of 8,000?
                                                            16
                                                                sections.
17
                  MR. ELLIOTT: Well, it says stores
                                                            17
                                                                               MR. GARBE: You're in 39-41?
18 gasoline or any VOC. Any VOC.
                                                            18
                                                                               MR. CLARK: 39-41 Part 3.
19
                  MS. LODES: That's a --
                                                                               MR. GARBE: A, B, or C? Excuse me.
                                                            19
20
                   MR. ELLIOTT: I'm assuming there's a
                                                            20
                                                                               MR. CLARK: It's just Section 3, loading
21 definition that limits control requirements to light
                                                            21
                                                                of VOCs.
22 VOC.
                                                            22
                                                                               MS. LODES: The very bottom of Page 3.
23
                  MR. GARBE: Let me find definitions.
                                                            23
                                                                               MR. CLARK: The very bottom of Page 3.
24
                  MS. LODES: Looking in definitions, it
                                                            24
                                                                               MR. GARBE: Okay. Thank you.
25 does not appear there's a definition of VOC. Oh,
                                                            25
                                                                               MS. LODES: The part you have

1	Page 38 highlighted in yellow.	1	I'm going to guess that's a DOT piece.
2	MR. GARBE: Thank you.	2	MR. ELLIOTT: It may be. There's a lot
3	MR. CLARK: It says, shall be repaired	3	less volume to I mean, it's emptied much quicker
4	within 15 days.	`	MS. LODES: Correct.
5	MR. GARBE: Those are for stationary	5	
_		[	MR. ELLIOTT: than the facilities.
6	loading facilities.	6	You have a larger volume to take care of to be able to
7	(Multiple voices.)	7	repair a leak. You'll have to transfer it out and
8	MR. GARBE: That requirement's for	8	it makes sense to me.
	stationary loading facilities, whereas, the five days	9	MS. BOTCHLET-SMITH: Any further
10		10	questions?
11	MR. CLAPK: Right. I I I realize	11	(Inaudible.)
12	that. I was just curious if there was a difference why	12	MS. LODES: Okay. We if there's no
13	more time allowed on stationary versus the trucks.	13	further questions from the council or the public, the
14	MR. GARBE: As far as I know, the	14	agency has recommended that we move this rule forward
15	repairing a stationary loading facility is a little bit	15	for approval. Do I have a motion?
16	more difficult and tedious, so I think there was a	16	MR. HAUGHT: I move that the council
17	little bit more time allotted for doing it since it's a	17	
	little bit of a bigger facility. It's a bigger entity	18	MS. LODES: I have a motion. Do I have
	to get into and repair things.	19	a second?
20	MS. LODES: The 15 days is in accordance	20	MR. COLLINS: I'll second.
21	with correct me if I'm wrong, Melanie VVa? Is	21	MS. LODES: I have a motion and a
	that the LDAR repair schedule?	22	second.
23	MS. FOSTER: The normal 15 days.	23	Please call roll.
24	MS. LODES: The 15 days which would be		
	· · · · · · · · · · · · · · · · · · ·	24	MS. FIELDS: Mr. Clark?
<i>_</i>	for the stationary source. I believe the five days, if	25	MR. CLARK: Yes.
1	Page 39 that's the vehicle, that would be under DOT	1	Page 41
	regulations; correct?	1	MS. FIELDS: Mr. Collins?
3	•	2	MR. COLLINS: Yes.
	MS. FOSTER: I don't know that that's	3	MS. FIELDS: Dr. Delano?
	where it originated from.	4	DR. DELANO: Yes.
5	MS. LODES: Okay. But I know if we're	5	MS. FIELDS: Mr. Elliott?
	under if we're looking at whether it's VVa, NSPS VVa	6	MR. ELLIOIT: Yes.
	NSPS VVa, any of those leak detections, that's the	7	MS. FIELDS: Mr. Haught?
8	normal 15 days that's codified on the federal side for	8	MR. HADGHT: Yes.
9	that. I'm right. Greg, you've got a lot of LDAR	9	MS. FIELDS: Mr. Taylor?
	stuff.	10	MR. TAYLOR: Yes.
11	MR. ELLIOTT: Yes.	11	MS. FIELDS: Ms. Lodes?
12	MS. LODES: You guys if I say I'm	12	MS. LODES: Yes.
13	right, I'm like	13	MS. FIELDS: Motion passed.
14	MR. ELLIOTT: Yes.	14	MS. BOTCHLET-SMITH: The next item on
15	MS. LODES: Okay.	15	the agenda is 5 E. Chapter 100, Air Pollution Control.
16	MR. CLARK: Okay. Thank you.	16	QAC, 252:100-2, Incorporation by Reference, amended.
17	MS. LODES: And this would be GGA, or GG	17	And Appendix Q, Incorporation by Reference, both
18	or triple G; right, Greg?	18	revoked and new.
	MR. ELLIOTT: Uh-huh.	19	And the presentation for on this
		20	•
19	MS IODES OF A		particular rule is by Ms. Nancy O'Brien of our staff.
19 20	MS. LODES: Okay.	ı	MC CURRENT Conditions to the condition of the conditions of the co
19 20 21	MR. ELLIOTT: For the (inaudible.)	21	MS. O'BRIEN: Good morning, Madam Chair,

2	for Appendix Q.	2	MR. COLLINS: Yes.
3	In addition, the Department is proposing	3	MS. FIELDS: Dr. Delano?
4		4	DR. DELANO: Yes.
5	Incorporation by Reference, and adopt a new Appendix Q.	5	MS. FIELDS: Mr. Elliott?
6	This proposal is part of the annual update of Title 40	6	MR. ELLIOTT: Yes.
7		7	MS. FIELDS: Mr. Haught?
B	Reference in Chapter 100. The Oklahoma rules on	8	MR. HAUGHT: Yes.
	rulemaking dictate the procedure for amending a rule	9	MS. FIELDS: Mr. Taylor?
10		10	MR. TAYLOR: Yes.
111		11	MS. FIELDS: Ms. Lodes?
12	reflect federal regulations, mostly New Source	12	MS. LODES: Yes.
	Performance Standards, or NSPS, and National Emissions	13	MS. FIELDS: Motion passed.
	Standards for Hazardous Air Pollutants, or NESHAPs,	14	MS. BOTCHLET-SMITH: And that concludes
	which have been implemented as of June 30th, 2018.	15	the hearing portion of today's meeting.
16	The update would incorporate any	16	MS. LODES: The next item on today's
•	amendments to standards currently listed in Appendix Q.	17	•
	A list of all changes to standards that have been made	18	agenda is Item 6, and it's the presentation by the DEQ regarding the 2018 ozone season review and looking
	since July 1, 2017, was provided in your packet that	19	abead.
20		20	
21		21	MS. FOSTER: Sorry, Laura. Can I interrupt you? I applopize.
22		22	We want to make sure that motion was to
23		23	both approve Subchapter 2 I mean, Appendix Q and
24		24	Subchapter 2. We're afraid that the motion may have
	notice requested written comments from the public and		only updated Appendix Q.
	werre redecates arrete conseils from the family with	23	only opoaced Appendix Q.
1	Page 43 other interested parties. No comments have been	1	Page 45 MR. HAUGHT: (Inaudible) the motion
	received as of today.	2	was (inaudible.)
3	The staff requests the Council recommend	3	MS. LODES: I thought it was just to do
4		4	the rulemaking as proposed. Do we do you want
5	permanent adoption. Thank you.	5	another will it be clearer if we do another motion?
6	MS. BOTCHLET-SMITH: Do we have any	6	MS. FOSTER: Yes.
7		7	MS. LODES: Okay. On that note
8	(No avaible response.)	8	MS. BOTCHLET-SMITH: You've already
وا	MS. BOTCHLET-SMITH: Any questions or	-	approved Appendix O. We've already concluded the
	comments from the public?		hearing. So he would need to
11	•	11	HS. LODES: I need a motion to reopen
12	(No audible response.) MS. BOTCHLET-SMITH: Seeing none.	l	the hearing portion of this meeting.
13	MS. LODES: The staff has recommended	13	MR. TAYLOR: I make that motion to
14	this proposed rulemaking for approval. Do I have a	14	racopen the hearing.
15	motion?	15	MS. LODES: Need a second.
16	MR. HAUGHT: I'll move that the council	16	DR. DELAND: I'll pecond.
		17	
17	approve the recommended changes to update the Appendix	18	MS. LODES: I need you to call roll.
18	Q.	19	MS. FIELDS: Mr. Clark?
19	MS. LODES: Do I have a second?		MR. CLARK: Are we voting right now to
20	MR. ELLIOTT: I second.	20	reopen it?
21	MS. LODES: I have a motion and a	21	MS. LODES: Yes.
		22	UNIDENTIFIED HALE SPEAKER: Yes.
22	second.		AND ADDRESS AS
22 23	Please call roll.	23	HR. CLARK: Yes.
22			MR. CLARK: Yes. MS. FIELDS: Mr. Collins? MR. COLLINS: Yes.
